## Domestic Appliances and Personal Care

Reference is made to Service Manual 4822 729 21689

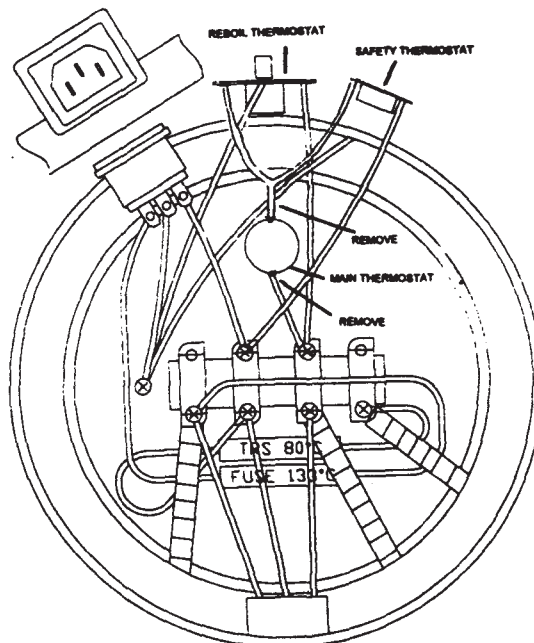

For high altitude area use only.

In high altitude area, water may found boiling continually without changing to keep warm mode. In this case it is advised to change the main thermostat ( Item 13 in service manual ) temperature rating from 90°C to 85°C. The new thermostat order number is 4822 282 10302.

After changing the main thermostat, stick a "High altitude area use" label to the bottom plate for differentiation.

To replace main thermostat ( Item 13 ) :-

- 1) Remove base plate.
- 2) Disconnect the two wires from main thermostat.

- 3) Remove main thermostat.
- 4) Fit a 85°C temperature rating thermostat in position, make sure the contact surface are even, reconnect the two wires.
